

## Thalassemia Awareness Camp on (18<sup>th</sup>&19<sup>th</sup> April2019)

### ***Program report:***

A two-day Thalassemia Awareness camp was organized by NSS UNIT-1 of Swami Dhananjoy Das Kathiababa Mahavidyalaya. Members of the medical team of Bishnupur District Hospital were present in this event. Mahavidyalaya principal Dr. Kakali Ghosh Sengupta Madam, Teacher's, office staff, NSS volunteers and other students were also present. The present doctors talked about what is Thalassemia, why a child is affected by Thalassemia and how to make other people in the society aware about Thalassemia. Thalassemia is not a disease - it is a genetic problem and it is possible to create a Thalassemia free society if we are a little aware. On the second day of the two-day event, all NSS volunteers and other students were subjected to blood tests to identify those who are carriers of Thalassemia.
